- Content Creation (YouTube)
- Infrastructure & Urban Planning

## PROFILE SUMMARY

Dedicated Civil and Architectural Engineering student at the University of Buea, currently in Level 300 of a 5-year direct Master's degree program. Brings hands-on academic project experience in pavement production and flood mitigation. Proficient in industry-standard CAD tools and passionate about sustainable infrastructure development. Certified graphic designer with proven administrative and construction site experience.

## EDUCATION

### Direct Master's Degree – Civil & Architectural Engineering

University of Buea, Cameroon | 5-Year Program | Started: 2024 | Expected: 2029

Currently in Level 300 (Entering Level 400)

### GCE Advanced Level – Science (5 Subjects)

Government Bilingual High School Deido, Douala

### GCE Ordinary Level – Science (10 Subjects)

Central Bilingual College Bepanda Omnisport, Douala

## ACADEMIC PROJECTS

### Pavement Production Project

University of Buea | Level 200

- Team project on the design and production of road pavement materials
- Applied material selection, mix design, and construction procedures

### Flood Mitigation Study

University of Buea | Level 200

- Analysed flood causes and proposed engineering mitigation strategies
- Applied hydrology, drainage systems, and urban infrastructure planning concepts

## WORK EXPERIENCE

### Secretarial Staff – GCE Board (Marking Phase)

Cameroon General Certificate of Education Board | 2024

- Provided administrative support during the official GCE examination marking exercise
- Managed documentation and coordinated logistics for smooth operations

### Construction Site Worker

Various Construction Sites, Cameroon

- Gained first-hand experience of on-site construction processes and material handling

### Environmental Cleanup Volunteer

Community Initiative, Cameroon

- Contributed to community-led environmental sanitation and urban cleanup drives
